Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 15-21, 23, 28, and 30-36, drawn to a system for embedding additional information in video data.

Group II, claim(s) 22, 25, 29, and 37, drawn to a system for detecting additional information in video data.

Group III, claim(s) 24, drawn to a method for embedding an electronic watermark in an MPEG stream.

Group IV, claim(s) 26, drawn to a method for detecting an electronic watermark in an MPEG stream.

Group V, claim(s) 27, drawn to a system for controlling the copying of digital data.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of the Group I invention is the particular means for embedding additional information without changing the length of the video data stream; the special technical feature of the Group II invention is the particular means for detecting additional information in data for a small domain from a video frame; the special technical feature of the Group III invention is the particular method of embedding an electronic watermark in an MPEG stream; the special technical feature of the Group IV invention is the particular method of detecting a pattern that is embedded in a DC factor; while the special technical feature of the Group V invention is the particular system for controlling the copying of digital data. Since the special technical feature of any one Group invention is not present in any other group claims, unity of invention is lacking.

3. A telephone call was made to Mr. S. Ference on 5/7/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Y. Lee whose telephone number is (703) 308-7584.

The examiner can normally be reached on (703) 308-7584.
